COMP516 Online Test 2022-23

Started: 1 Nov at 12:41

Quiz instructions

Please read these instructions carefully before you begin the test:

- This is the online test for COMP516 weighting 20% on the overall module mark.
- The test format is a Canvas test including MCQs, MQs, ordering questions, and matching questions (some question types may not appear to your test due to randomisation) covering all topics discussed in the lectures.
- The test consists of 40 Questions each worth 2.5 marks.
- The test will be open for 12 hours (Tuesday 1st November from 09:00 until 21:00 UK time) but once started it should be completed within 60 minutes, so you can spend an average of 1.5 minutes per question (so it is important that you answer as quickly as possible, based on what you know and without attempting to consult notes or other resources).
- Students with a support plan indicating extra time, will be given the amount of extra time indicated (in case you are entitled to extra time but you find out that this is not

A screenshot of a computer monitor displaying a quiz interface. The browser window has three tabs open: 'Desmos | Graphing Calculator', 'Quiz: COMP516 Online Test 2022', and 'New Tab'. The main content area shows a message from the Experience Team via email, followed by a question titled 'Question 33' worth '2.5 pts'. The question asks: 'Which one of the following is a perfect ethical theory?'. Five options are listed, each with a radio button: 'None of the other answers' (selected), 'Subjective relativism', 'Act utilitarianism', 'Divine command', and 'Kantianism'. A cursor arrow is visible near the bottom right of the question box. Below the question box is a blue 'Next ▶' button. At the bottom of the screen, a taskbar shows various icons, and the status bar indicates the time is 'Saved at 13:25' and there is a 'Submit quiz' button.

Question 30

Your company breaks collaboration with a client A and, shortly after, your new client becomes A's competitor, company B.

Which one of the following respects the BCS Code of Conduct?

You shouldn't reveal confidential information about A to B.

You'd better not reveal confidential information about A to B as this is a form of bribery.

You can reveal some confidential information about A to B as this would allow B improve their professional standards.

You can reveal some confidential information about A to B as this encourages and supports fellow members in their professional development.

You can now reveal confidential information about A to B, as this will make your client and, thus, your own company too, stronger.
